## OF LOCAL INTEREST

**PRAYER MEETING.**—The Christian Home prayer meeting at 7:30 tonight will be led by R. T. Gillett.

**YOUNG CAYOTES.**—A. W. Galpin placed in his display window yesterday two fine specimens of young cayotes which were captured on the desert.

**ROLL OF DISHONOR.**—Justice Kyle yesterday had before him Juan Quinona, Savadra Valencia, Ynacio Estrada, Jerry Daugherty, who were each given five days for drunkenness.

**A GLOBE VISITOR.**—W. A. Galpin of Globe is in the city for a few days on business and visiting his brother, A. W. Galpin and family and his father. He reports Globe as showing improving business conditions and mining activities are increasing.

**FOR AN EASTERN VISIT.**—Mr. Frank J. Blount and family left last night for their former home in Illinois. They will return to Phoenix in October.

**THE OSBORN CORPS OF TEACHERS.**—The trustees of the Osborn school district have selected their teachers for the coming year. They are Miss Nellie Murphy, Miss Hickman, Miss Ethel Smith and Miss Bessie Hedgcock. Misses Murphy and Hedgcock have previously been employed in the schools of that district.

**GLENDAL OATS.**—Joe Asher of the Bartlett-Adams ranch two miles and a half north of Glendale, brought to the board of trade yesterday a sample sheaf of his sixty acre oats patch. It is mighty fine looking grain but it only stands seven and a half feet high and is still six inches short of Chappin Scott's showing of a few days before. Possibly it was planted a week later in which event Mr. Asher still has a chance to get under the wire by harvest time.

**THE ILLNESS OF JUDGE STREET.**—Judge Street was brought to the city yesterday morning suffering from a stroke of apoplexy which befell him at Bowie on Sunday. He had been threatened with the attack for days and his friends had tried to dissuade him from a trip to Globe where he had legal business. But he said on Saturday that he was feeling well and he believed that the journey would be beneficial to him. Even then he was able to speak only with great difficulty. By the time the train reached Globe he was in bad condition, one side being almost completely paralyzed. There was no change in his condition yesterday.

**AZTEC CLUB.**—Articles of Incorporation of the Aztec club, a recently formed organization which has fitted up rooms in the Hotel Adams, were filed with the county recorder yesterday. The incorporators are James D. Bell, George Driscoll and Vernon C. Cook. The directors named are C. J. McElroy, Wm. Scholfield, George Driscoll, Vernon C. Cook and S. W. Higley. The rooms are those formerly occupied by the Arizona Club just previous to its removal to the Homer block. Fine furnishings have been placed in the apartments and the membership is extending to include quite a number of business men and citizens.

**MAN WANTED.**—Marshal Moore has received a circular letter from the chief of police of Wheeling, W. Va., making inquiry as to the whereabouts of Charles E. Gilligan. The inquiry is made in behalf of his mother, wife and daughter, all of whom are anxious to hear from him. He left home eight years ago and has not been heard from since. He was a traveling salesman previous to his disappearance and reputed to be as pleasant and successful a drummer as ever "packed a grip" and a royal entertainer. He is six feet tall with brown hair, mustache lighter and inclined to red, deep blue eyes, and a scar on the neck. If he is found he can be easily identified as he is tattooed on the left arm with his name and with a star and anchor.

**ANOTHER RUNAWAY STUNT.**—The buckskin team belonging to Mr. Smith who lives north of the city, did another runaway stunt yesterday, though the team had some excuse for getting excited on this occasion. A runaway mule hitched to a buggy turned the corner of Washington, north on First avenue and there encountered a row of wagons. One of them was a milk wagon drawn by the Smith team. A wheel was smashed by the runaway mule and then the buckskins touched the ground, circling around two or three other rigs and shoving a row of bicycles in front of the Creighton block. The mule in the meantime had kicked over the dashboard of the buggy he was attached to, and broken one of the shafts. This demonstration was followed a little later by a one act farce pulled off by a delivery horse operated in connection with the Dorris grocery store. The horse refused to pass a street car in front of Wakkell's store, and backed up under considerable steam, causing a rear end collision between the delivery wagon and the curb stone in front of the Fashion barber shop. A bicycle that was caught between them was put out of commission.

**NEW REALTY OFFICE.**—W. H. Hall, who has been until recently associated with the H. L. Latham company, is preparing to open up an office of his own in a few days. He has not yet decided upon a location but is looking things over carefully, being convinced of only two things. One is that he is going into business and the other is that his real estate is all worth more now than it was when he listed it with the various agencies in the city. For that reason he has withdrawn all of his holdings from the market for the present and will handle his own property as well as that of others, as soon as he gets opened up. He gives another tip and that is that when he sells he will get more money than he has been asking for his holdings heretofore. Mr. Hall has been very successful in the realty business thus far and has every reason to hope he will do just as well in the future.

**LEASE ON RECORD.**—The lease of C. A. Massie on the Cole building on West Washington street, owned by A. G. Hubbard, was filed in the county recorder's office yesterday. It runs for a period of five years at an annual rental of \$200 or \$175 per month. Mr. Massie will open a furniture store, handling both new and second-hand furniture. One adjoining room will be devoted to a ten and twenty-five cent department and will be filled with a stock of articles retailing for those figures and less. The entire building is being repaired and will be placed in first-class shape. Mr. Massie says he has come back to Phoenix for good this time. He has made three or four efforts to break away and locate in California but always found that the inducements for returning here were greater than what were presented for remaining away. Business is much better in Phoenix than in California and he considers the outlook for Phoenix much brighter than any city he has yet seen.

## H. A. DIEHL Shoe Co.

**POLICE COURT.**—City Recorder Thomas and Marshal Moore had eight cases yesterday in their regular afternoon clinic, but none of them were severe and all will recover if they can stand a short confinement or dig up a little money for the city. Dick Blair and Alex Moore were sent below for three and five days, respectively, having been caught drunk when the town was closed tight and it was impossible to get him. J. M. Martinez, Joe Coz and Andy Garcia had worked the same kind of a number and were jailed for five, six and three days respectively. Albert Vera Cruz was kept over a day in pickle, and John Doe accused of selling liquor when it was legally impossible for him to do so was also held over. A bad boy was also dismissed on a floater after facing a vagrancy charge. He admitted that he had at one time before taking to the road, been billeted for the reform school and never fully understood why he had escaped it.

**AIMED AT A LOCAL INDUSTRY.**—A Missouri man who no doubt means well proposes to destroy one of the most remunerative industries of this part of the country. His name is Henry W. Graham of Chillicothe, Mo., who writes to the "secretary of state" saying that he is in the business of annihilating wolves and coyotes and from what he has read and heard he thinks that this is a good field to work in. The latter has been turned over to the board of supervisors. Mr. Graham does not want to go into the enterprise on a "scalp" and "head" basis. He expects to get rid of the destructive beasts in a lump and then he wants a lump sum. Unless his efforts are fully successful he wants no pay. The measure of success is to be determined by the fact that when he is done the voice of the coyote and the wolf shall be heard no more in the land. Mr. Graham thinks that he can accomplish the business of putting these animals in the extinct class in twelve months.

## THE HUB

### A GOOD ARTIST

can make a ten thousand dollar picture of a ten dollar man. A good engraver can make a cut of a two dollar shoe look as well as a seven dollar shoe, but he can't put the value into the shoe. We can't make the picture tell the story, but the shoe does its own talking. Look at the Stetson Shoe and wear one pair and you'll readily see why so many people pay Stetson prices for Stetson Shoes.

Stetsons cost from \$5.50 to \$9.00 the pair.
